

THE WASHINGTON COUNTY TOURISM ASSOCIATION

The Washington County Tourism Association was founded on March 31, 1995 by a group of concerned business people and involved citizens who wanted to see tourism grow. They realized that tourism could be a major economic industry for the county.

Every year the Washington County Tourism Association supports tourism by partnering with NaPaul Publishing, producing an annual Tour Guide. This guide is distributed to over 250 regional businesses and tourism information centers in the North East area of the United States.

In addition, the association attends tourism trade shows and fulfills requests for information.

The growing use of the World-wide Web has made the web site www.washingtoncounty.org an important tool to encourage tourists to visit our scenic county and gives them up to date information about attractions accommodations, dining, events and other travel information. The Tour Guide is downloadable on the web and the site is interactive for updating and placement. Every year this site has over one million hits.
